What we do.

KULTURSPACE IS A WAY OF THINKING. IT'S A CREATIVE PERSPECTIVE.

FOTOSKOLAN STHLM
HUNDRA PROCENT BILD

Ever since iconic photographer Christer Strömholm founded Fotoskolan STHLM in 1962, 'the image' has always been our main focus even as technologies and market conditions have changed. During these fifty years we have educated thousands of students that have gone on to become professional photographers.

We are a progressively modern school that consistently reacts to and adapts to changing circumstances while still keeping our focus on the image.

kulturspace is a way of thinking. it's a culture of innovation. We bring creative collaboration on a global scale to developing strategy for your brand evolution.

kulturspace unites the talents of designers, storytellers, branding mavericks and innovative strategists from around the world. It's a global approach to creative solutions. Between us we speak 11 languages. Our experience is international. Our approach is collaborative. We understand the importance of cross-cultural perspective in the organic development of ideas.
